

# MOSAIC

With dCS Mosaic Control you have access to a vast library of streaming music through a simple, yet powerful interface. This guide will help familiarize you with the various functions of Mosaic Control and with it you will be an expert in a matter of minutes.

## **Media Browsing**

- Looking for something to play?
  - Tap the **Q** button on the navigation bar and find all of your music in one place.
  - 1. Tap anywhere on a track to add it to the play queue
  - 2. The menu shows additional options
  - 3. Tap the (i) button to show extended metadata

**Tip:** Tap and hold a track to highlight it, then tap additional tracks to add to the selection.

- ☆ Searching for something specific?
  Use the Q button on the navigation bar.
  - **4.** The format indicator shows the resolution of the current album:

Master Quality Authenticated

HI-RES Lossless, above 16 bit / 44.1 kHz

Lossless, 16 bit / 44.1 kHz

Lossy, MP3 or AAC

MQA

# **Play Queue**

- 1. Tap a track for playback actions
- 2. Use the handle and drag tracks to reorder queue
- 3. Tap the album artwork for a full-screen view
- **4.** Tapping the volume slider when Mosaic Control is in landscape orientation brings up an enhanced volume control
