

Release Notes

Varèse Firmware & Mosaic ACTUS vi.2.2

1. Versions

Varèse Firmware: v1.2.2

Mosaic ACTUS app: v1.2.2

2. New Features

- Qobuz Connect
Qobuz Connect functionality allows listeners to access music and control playback on Varèse Music Systems from within the Qobuz app.

3. Improvements

- Spotify Lossless indicator now shows when playing Spotify Lossless content.
- General stability improvements to Varèse Music Systems.

4. System Information

In order to ensure ongoing firmware updates, improvements, bug fixes and security patches are secure and appropriate, dCS now securely feedback some basic system information from Varèse Music Systems. This information helps dCS respond to changes in digital cyber security regulations, the install-base of equipment in the field, and the firmware versions currently installed. A reminder of dCS privacy policy can be found here: [Terms & Policies | dCS](#). The information is encrypted and is used under legitimate use. It informs dCS only of the unit ID, firmware version, and serial number.

5. Availability and Distribution

dCS Mosaic ACTUS v1.2.2 can be downloaded through the [App Store](#) or [Google Play](#).

Varèse firmware v1.2.2 is available for Varèse Music Systems. This firmware can be downloaded via an internet update either through the User Interface or through the Mosaic ACTUS app. To update the system, navigate to **Settings > System > System Update**, then tap **Download**.

6. Support

If you require assistance with any aspects of your dCS product, we recommend contacting your nearest dCS dealer or distributor as a first step. Our partners undergo extensive training on the entire dCS product range and are well equipped to deal with most issues or queries.

You can use our [Dealer Locator](#) tool to find a dealer or distributor in your region.

You can also find a wealth of information on the [dCS Community](#) forum, including answers to FAQs and information regarding common technical and support topics. The forum includes a dedicated support area, where you can post questions for the dCS support team.

Should you require further assistance, you can contact the dCS support team via email at support@dcsaudio.com. We aim to respond to all queries by the close of the next working day.
