

My equipment for the test :

- Bartok non-Apex/Bartok Apex tested (DSD2X, Mapper 1, Filters 1, 2V output)
- The Gryphon Diablo 300 (vol 22).
- Triangle Magellan Quatuor speakers (SW3 version)
- Roon renderer installed on Win 10 NUC
- Nordost Heimdal 2 XLR
- Cardas 101 for speakers
- Real Cable power cords (the same for both DAC)
- Nordost Frey2 power cord (Amplifier)
- Cat 6 RJ45 stock cables
- The Room : surface 45 m<sup>2</sup> with 3,35m average ceiling height, log house home, RT60 Ok, no treatment (light and inconsistent vertical diffusion pattern due to the logs).
- Average listening volume between 60 and 74 Db approx.
- Near field listening.
